

Course Description

AP Biology

PURPOSE:

This course is open ONLY to selected juniors and seniors interested in a science major in college. This course is designed to allow better junior and senior science students an opportunity to take an introductory college biology course while still in high school.

CONTENT:

Students will cover a typical freshman college level biology curriculum. At the conclusion of the course, students will have an opportunity to take the Advanced Placement Biology Exam. A high score on this exam can earn the student college credit at many colleges and universities.

LENGTH:

1 year (1 credit).

PREREQUISITES:

"B+" or above in Biology, Chemistry, and Algebra. Recommendations from Chemistry teacher and Biology teacher are required.

SPECIAL NOTES:

Open to grades 11 - 12. Recommendations from Chemistry teacher and Biology teacher are required. Interviews with the instructor may be required. Enrollment is ONLY with instructor's approval. Lab fee. Safety goggles required.
