

The IPS Lab Exam Report

- ❑ NO REPORT COVERS ACCEPTED
- ❑ 12 point font size of ordinary style (Times New Roman, Arial, Helvetica, etc...)
- ❑ Standard 1" margins
- ❑ 1.5 or 2.0 line spacing (not single spaced)
- ❑ Cover page stapled with ONE staple in the UPPER LEFT CORNER of the paper.
 - Cover page contents:
 1. Class Name & Period
 2. Names of people in group
 3. Substance being investigated (**number and letter included**)
 4. Date
- ❑ Each separate lab procedure should go on a separate page or pages.
- ❑ Illustrations, graphs, diagrams, data tables are expected where appropriate.
- ❑ The first page is a table of contents listing what experiments were done and what page they are presented.
- ❑ The second page should be your initial “plan of attack” or what you plan to do first, second, third, etc...
- ❑ The third page should be your initial observations and the beginning of your experimentation.
- ❑ The last page is your CONCLUSION which should answer your initial question. Your initial question depends on what your project is – white powder, three liquids or sludge.

White powder = you tell what it is

Three liquids = you tell if they are the SAME or DIFFERENT

Sludge = you tell how many items (solid & liquid only) are in the mixture and give a description of each.

In all cases, the more experimental evidence you have, the better your conclusion and the better your grade (if you are correct of course).
