April 2019

## Mock Trial Celebrates a Successful Season

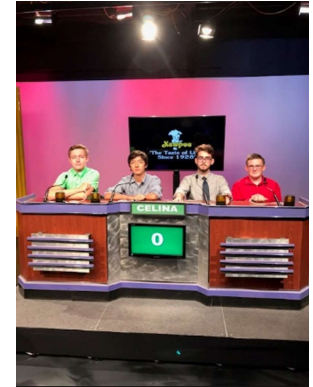

The CHS Mock Trial team argued a timely case this season. The 2019 case, *State of Buckeye v. Quinn Woolf*, challenges students to consider an individual's right to privacy in our increasingly technological world. The case examines, in particular, our Fourth Amendment protection against unreasonable searches and seizures of property.

CHS took two teams to the district competition. Lillian Gramza and Graham Gower were named Outstanding Attorneys, and Geordan Muether and Skyy Jackson were named Outstanding Witnesses. One of the two teams advanced to the regional level. While the team had two very close trials at regionals, they, unfortunately, did not advance to the state competition. Graham Gower was named Outstanding Attorney at regionals.

## Scholastic Team Sees Increased Participation

The Scholastic Team saw a resurgence in numbers with 16 students participating at various times throughout the year. The team practices twice a week and competes in approximately 12 tournaments from October to May. There are several different formats for tournaments with questions covering many subjects, all possessing a high degree of difficulty. Highlights of the year are always the televised tournaments – WBGU's Brain Game and Lima's Channel 44 Whiz Quiz.

## NHS

- 56 current members
- Stadium cleanup after home football games
- Candy bags for the student of the month nominees
- Solicitation letters Giving Thanks
- Poinsettia sales for Christmas
- Door decorating contest
- Imagination Library monetary donation
- Peer tutoring

- Scholarships for seniors

## TEAMS

- TEAMS is an engineering competition that challenges students to use the real-world applications of math and science.
- The name "TEAMS" has a dual meaning. Groups of 8 students form a "team" that works together to cooperatively write a paper, take a test, and design a device.
- CHS has 4 teams that compete.
