

## Amended Graduation Requirements for the Class of 2020

To reflect the change in circumstances during the ordered school-building closure that may limit the ability to complete classes, conduct assessments and access certain graduation pathways (for example, earning an industry-recognized credential, completing a work or community service experience), Governor DeWine and the Ohio General Assembly have given flexibility to schools and districts **to award diplomas to students who have successfully completed the “curriculum requirements” while forgoing all other additional requirements for a diploma. Additional components for a diploma that are no longer requirements for students given this flexibility include assessment requirements and any alternative pathways to graduation.** This window of flexibility granted to school districts and graduating students extends through **Sept. 30, 2020.**

Celina City Schools Students in the Graduating Class of 2020 must earn a total of 20 credits (State Minimum) to receive a diploma from Celina High School. (The previous number of required credits was 21.5 credits.)

In response to the COVID-19 Epidemic, students in the Class of 2020 will need to earn 4.5 Elective Units. This number of Elective Units was previously 6 Units. 1 Unit or 2 half-Units must include: Business, Technology, Fine Arts, or Foreign Language.
