## **Psychology 2 Online Course Proposal**

For the 2019-2020 school year, Psychology 2 would only be offered online. Offering Psychology 2 online here at the high school will allow students to complete their 4 Social Studies credit requirement for an Honors Diploma. It will also allow these same students to stay here at CHS as opposed to going somewhere else to complete their Psychology credits. Offering Psychology 2 online also gives some freedom in when the students can take it because this course will be off of the master schedule and not be prohibited by other courses the students need to take. It is a semester course and it would be offered both semesters. However, if there are no students signed up for semester 2, it will be closed.

### **Requirements of the Course**

- The prerequisites for Psychology 2 are Psychology 1 and Biology.
- The students will be required to complete and turn in assignments weekly. The number of assignments per week will vary, however, they will all always be due the same day every week.
- Students will be required to check in with me once a week to go over their progress and to answer any questions they have about the materials, content, or assignments. They can meet with me during IE or my Plan Period. It does not have to be the same day their assignments are due.
- Students will complete module/chapter exams, quarter exams, and a final exam at the end of the semester.
- There will be one individual research project that will be due at the end of the first quarter.

### **Compensation**

- \$4,297 for Semester 1 and \$4,297 for semester 2.
- This includes compensation for the time I will need over the summer to digitize 18 weeks work for the class. This also includes the time during the semester to assign 5-days work per week, to grade 5-days work per week, grade essays and projects, and to meet with every student weekly to discuss their progress.
