Celina Board of Education
Celina City School District
585 East Livingston Street
Celina, OH 45822

Dear Board Members:

I am writing to you today to inform you that contingent upon my expected employment date of Tuesday, June 23rd at Versailles Exempted Village School District I am submitting notice of my resignation from Celina City School District.

I never thought I would leave such an exceptional school system as Celina City Schools, but when the opportunity presented itself for me to take somewhat of a career turn in becoming a Behavior Analyst at Versailles Schools, I had to accept the opportunity.

I cannot say enough wonderful things about my experiences at Celina City School District, and it has been an absolute pleasure and privilege to work for Phil Metz. His leadership has taken me to a new level in my profession, and I am grateful for the opportunities of growth and challenge within the high school. I immensely enjoyed the experience of starting the Celina Virtual Learning Academy and watching it grow from its initial 40 students, to the 207 students served this past year, not counting the county summer school. I am equally grateful for the experiences I gained in special education from working closely with Tracey Dammeyer. She is the epitome of professionalism, and I benefited from her wealth of specific knowledge in the field. It has been an honor working with the second-to-none professionals on staff, and serving the students and community in Celina. It is my hope to stay in touch as I begin this new chapter in my life.

I am happy to help in the transition in any way, so if you have any questions, please don't hesitate to contact me. Thanks again for everything!!
